INCLUDED IN ALL PLANS

 SaaS  Cloud infra  Continuous updates  Secure & scalable  30-day data retention

OPTIONAL ADD-ONS

- Advanced operational modules (e.g. plant downtime monitoring)
- Industry-specific intelligence modules
- Integration with enterprise systems (ERP, HR, weather, and other external data sources)

Professional services across the full lifecycle — including deployment, OT integration, gateway setup, signal mapping, training, and ongoing operational support — are contracted separately and delivered by certified partners.

WHY TEAMS CHOOSE BEYOND

- Use the data you already have
- Alerts delivered where decisions happen
- Unlimited notifications — no per-alert pricing
- No infrastructure to manage
- Clear separation between software and services
- Built for mid-market and enterprise operations

HOW SCALING WORKS

- Pricing based on active tags
- Soft limits — no disruptions
- Instant upgrades
- No downtime or reconfiguration

Start free. Prove the value. Stop babysitting dashboards.
